

Project Development Phase
Performance Test

Date	09 JULY 2026
Team ID	
Project Name	DarshanEase
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Screenshot / Values
1.	Data Rendered	Temple information such as temple name, location, timings, and images are successfully displayed on the website interface.
2.	Data Preprocessing	User registration, login, and booking information are processed correctly through backend APIs and stored in MongoDB.
3.	Search & Filter Function	Users can search temples by name or location using the search functionality.
4.	API Requests Used	Backend REST APIs are used to fetch temple data, process bookings, and handle authentication.
5.	Dashboard design	Organizer dashboard allows temple administrators to manage slots, bookings, and temple details.
6	Admin Panel	Admin dashboard provides system monitoring including number of temples, bookings, and users.
